- Planning the goals and objectives of a business using Business Model Canvas.
- Planning marketing strategy for sales increasing.
- Products photography and video, edit images and post them on Social Platform.
- Created content and promotions.

## PROJECTS

### Travel Attractions Website
HTML, CSS, BOOTSTRAP

- This project is a responsive website showcasing recommended tourist attractions across five regions of Thailand using HTML, CSS and Bootstrap.

### Tic Tac Toe Game
HTML, CSS, JAVASCRIPT

- This project is a classic Tic Tac Toe game presented as a web application. The game features an intuitive interface displaying the game board, tracking player turns, detecting winning conditions and draws.

### Weather Web Application
HTML, CSS, JAVASCRIPT

- Display real-time weather information such as temperature, humidity, wind speed, etc.
- Integrated OpenWeatherMap API to fetch weather data based on user-input city queries.
- Handled API responses effectively, displaying error messages for invalid queries or unavailable data.

### Shopping Website
REACT, TAILWIND

- This project using Vite.js to create a React app and utilized Tailwind for styling.
- The website features a responsive design, ensuring optimal user experience across various devices and screen sizes.

### Portfolio Website
HTML, CSS, JAVASCRIPT

- The portfolio project is a responsive website designed to showcase my projects, skills and personal information.
